## LOCAL BUSINESS MAN, CIVIC LEADER, PASSED AWAY TUESDAY, 1:15 A. M.

George R. Rea, Although in Ill Health for Some Time, Passed Away Unexpectedly at His Home on Washington Street—Remains Taken to Wesson for Burial.

George Rembert Rea died suddenly at 1:15 A. M. on Tuesday at his home here and the news of his death was a shock to the community although Mr. Rea had been ill for some time, had been under a physician's care and it was not thought his condition was serious enough to warrant such a hasty death. Mr. Rea had been at his office on Monday and transacted business, although he had complained of not feeling well and left the office in the early afternoon.

Mr. Rea was a native of Wesson, Mississippi, where he spent his early years and attended school. He was a graduate of Southwestern University of Memphis, Tennessee, and entered banking in New Orleans. Thirty-eight years ago he came to Bay St. Louis where he accepted a position with the Merchants Bank and Trust Company, of which institution he later became president. After leaving the Merchants Bank, he entered the insurance business with offices in the Masonic Temple Building where he also conducted the business of the Peoples Federal and Savings and Loan Company, of which he became president, and which position he held at the time of his death. Recently Mr. Rea was made a member of the national board of savings and loan companies.

Mr. Rea was national treasurer of Kappa Sigma Fraternity, an international college fraternity and one of the largest in the world, and had held this position for a number of years, having been unanimously re-elected a number of times at the different conclaves when the national officers are elected. The business of the treasurer's office is so large in scope, that it was one of the largest in Bay St. Louis.

Mr. Rea also served as chairman of the Hancock Chapter of the American Red Cross for twenty-three years and held this post and gave untiringly of his time and money to it during periods of war and peace.

Mr. Rea had held many offices and was well identified with the civic, social and charitable affairs of the city. He was one of the organizers of the Carnival Ball, a yearly event, and performed many charities which were not known of. He was especially interested in assisting young people in receiving needed education and many a boy and girl completed their college work through his kindly assistance.

Mr. Rea was president of the Board of Stewards of the First Methodist Church and a past president of Bay St. Louis Lodge 129 of Free and Accepted Masons.

Surviving Mr. Rea is his wife, the former Doris Holcomb, and his parents, Mr. and Mrs. James S. Rea and a sister, Miss Decima Rea, all of Wesson, and two sisters, Mrs. George Walker, Leland, and Mrs. Alfred Garner, Starkville, Mississippi, also four brothers, Robert Rea of Wesson, and Frank, James and Rembert Rea of Longview, Texas.

Religious services were held at 6:00 P. M. on Tuesday evening at his late residence on Washington street, with the Rev. Warwick Aiken of Christ Episcopal Church officiating, and the body was taken by automobile hearse at 5:00 A. M. on Wednesday to Wesson where interment was in the family plot. Services at the home and grave in Wesson were by a Presbyterian minister and pallbearers were members of Kappa Sigma Fraternity, namely: Beauford Jester, Corsicana, Texas; George Raymond, Baton Rouge, La.; Eben M. Bee, Brookhaven, Miss.; Jack C. Whitesell, and Robert Craig, both of New Orleans; and W. J. Adamson, Jr., of Bay St. Louis. A wealth of large and beautiful floral offerings displayed the great esteem in which Mr. Rea had been held and number of persons, including members of the Masonic Lodge, accompanied the body home and attended the last rites.

Honorary pallbearers were: J. K. Patterson, E. F. Anderson, L. O. Caraway, C. R. Granberry, J. M. Ewing, W. F. Williams, J. J. Williams, L. M. Wilson, W. L. Beall, Frank Oswald, R. E. Middleton, C. E. Cowen, Curtis Youngblood, W. P. Furr, Bay St. Louis, and W. P. Furr, Bay St. Louis, and W. P. Furr, Bay St. Louis.

Funeral services will be held at 10:00 A. M. on Saturday at the home of Mr. Rea, 129 Washington street, with the Rev. Warwick Aiken officiating. Burial will be in the family plot in Wesson.

## GOVERNOR JOHNSON PLANS NEEDED REST AT HOT SPRINGS, ARK.

Leaves Capital for Famous American Spa; Lt. Governor Murphree Takes Over.

Governor Paul B. Johnson left Jackson early Tuesday morning for a 10-day rest at Hot Springs, Ark., and Lieut. Gov. Dennis Murphree was scheduled to start his occupancy of the governor's chair later today.

Before his departure the chief executive signed a requisition for the extradition to Greene county from Alabama of Walter O. Phillips, who the request said was charged with murder in connection with the fatal shooting on Sept. 24 of Dr. C. G. Nunn, Leakeville dentist, during the delivery of a prisoner from the Greene county jail.

Records in the secretary of state's office today showed that Johnson also had issued three pardons and eight suspensions of sentence in addition to the 24 suspensions and one pardon filed yesterday.

## Chevrolet Adds Entirely New Type Of Car To Line For 1942; On Display Here

The latest addition to the Chevrolet line and something entirely new in the lower price field is the "Fleetline Aero Sedan" now being displayed by the Gulf Chevrolet Company.

Features of this latest Chevrolet creation are lowering rear-quarter windows and a pronounced streamlined top and back giving the new car the appearance of low rakish lines that are found in some of the highest price General Motors cars.

The outward appearance of this new Aero-Sedan resembles a Coupe with wide rear seats, is passenger roominess, and finished in "Fleetline" broadcloth upholstery, two assist straps, two coat hooks, two robe coats, two ash receivers, foot rest, and extra large parcel shelf in rear compartment. Adjustable front seat with full width cushion.

In describing this newest Chevrolet model Mr. Voight said it is one of the most beautiful cars ever produced by Chevrolet and will find an immediate public acceptance and fill a place in the market which has been a public demand for some time.

## GARDEN NOTES AND HINTS TIMELY FOR THE PRESENT SEASON

Polly Anthas Says Good Seed, Good Fertilizer Will Save Trouble On—Calendulas, Alyssum.

Many new gardens will be started during the next few weeks as part of the settling-in process in homes that are new since October 1. The methods involved in gardening will probably be a mixture of ones that will produce results speedily and those that are part of a long-term plan.

One of the things that can be done shortly to make a change of appearance for the better will be the sowing of winter grass. The preliminary step may vary in new gardens from the sowing of the whole lawn to a surface treatment of fertilizer. If there are indications of drainage problems or some other big difficulty the wise thing would be to make corrections at the beginning.

Drainage may be a question of filling in with good soil and arranging the slope of the lawn in the right direction or it may be necessary to remove the entire surface and put in drains of bricks, cinders, or hollow tile and cover with good loam.

**River Sand Packs.** Just as a reminder, river sand or soil which is largely river sand will pack more and more tightly as it gets beaten down by water, from skies or hose, until no grass roots can stand it. A goodly proportion of humus ought to be mixed in to prevent future trouble. And of course, this addition of humus will be beneficial to old lawns as well as to new ones.

On the established plots the humus can be scattered over the surface and forked in without disturbing the good grass already in place.

Before planting winter grass fertilizer should be spread and watered in. A complete chemical food will get quickly to put nourishment into the ground and will introduce new weeds that have to be dealt with later. An application of manure will tend to condition the soil but it will probably bring along many other seeds than grass.

**Calendulas, Alyssum.** If quick-blooming annuals are needed for the new garden or for an older one there are several that will reward the gardener's efforts well. Probably the speediest are sweet alyssum and calendulas. Alyssum is such an attractive edging that it will create a delightfully well-ordered look if it is used to outline the new beds and borders. And calendulas are excellent bedding plants, their golden shades being particularly appropriate for autumn.

Chrysanthemum plants can be set out now to give a well-settled look to a new or lately started garden.

A district scout executive meeting was held at Hotel Reed on last Friday evening at 6:30 with dinner served in the main dining room of the hotel.

## Judge Brandeis Of Supreme Bench Leaves 3-Million Dollar Estate

The will of the late Louis D. Brandeis which was filed from probate in the district court revealed that the great liberal jurist left an estate of approximately \$3,200,000.

The size of the estate was a surprise. Brandeis had always lived a simple life. For nearly 25 years his income as an active and then retired justice of the court was \$20,000 a year.

Before becoming a justice, however, he had been an active practitioner of law and it was assumed that he had accumulated a large fortune. But he was not. He was a simple man who lived simply and died simply.

His estate was divided among his children and grandchildren. He left a large sum to his wife, but she died within a few months of his death.

## LARGE CROWD EXPECTED FOR HOMECOMING, 12TH.

Donaldsonville Catholic High Will Provide Football Entertainment.

Among the outstanding events at St. Stanislaus Homecoming is one of the most prominent.

Every year from North, East, South and West come men—dads and grads from all walks of life to visit St. Stanislaus. It is by far the most colorful affair of the year. The town becomes literally flooded with people, people who either once spent their happiest days of their lives here at school or people who are allowing their descendants the privilege of attending such a fine, reputable institution of the Rock-A-Chaw.

Homecoming is spoken of as a reunion and though later on during the year there is an Alumni Day, it is not quite as well attended as Homecoming since the latter has more life and appeals more to the memories of both Dads and Grads.

In the past it has been a tradition that the night before the big day a parade is held. This procession is led by the St. Stanislaus Band while hundreds of enthusiasts follow gaily. After circling the town the parade usually returns to the school campus where a bonfire is already under progress. However, due to the green grass now growing on the campus, it is doubtful whether or not there will be a bonfire this year.

The morning of Homecoming Day is begun by an early Mass. After breakfast there is a general registration of visitors, which will last to dinner time 12:00.

To climax the afternoon comes the football game. This year the opponents of the mighty Rocks are the Catholic Hi Boys from Donaldsonville. A very fine game can be expected by all those who attend this game.

## MRS. J. A. GREEN, JR., ELECTED HEAD OF ST. JOSEPH MOTHERS CLUB

Succeeding Mrs. T. Tudury, Resigned, Who Was Given a Rising Vote Of Thanks.

At the regular monthly meeting of the St. Joseph Academy Parents' Club held on last Friday afternoon at the convent, Mrs. John A. Green, Jr., was unanimously elected president of the club after the resignation of Mrs. Theo. Tudury, while Mrs. E. M. Hendrix was elected treasurer upon the resignation of Mrs. L. S. Elliott. Mrs. E. R. Curran was elected vice-president and Mrs. G. F. Stevenson re-elected secretary.

A report from Mrs. Green, chairman of the membership drive, showed a number of new members joining the club this year and the drive continuing for a while yet.

Mother St. John stated that several needy children had been provided with text books and the club defrayed the expense of these books.

It was decided that at each meeting a social hour would be held after the business of the meeting has been completed and Mrs. Green and Mrs. Curran offered to be hostesses for the next meeting.

Mrs. Tudury was given a rising vote of thanks by the members for her able leadership of the club during her term as president.

## STANISLAUS GRIDDER'S WINNERS

Over St. Aloysius at New Orleans—Many Local Fans Attend Game.

The Rock-A-Chaw football team of St. Stanislaus last season, started out this year with a bang, winning their first game at Baton Rouge over Catholic High with brilliant playing, and on last Sunday, October 6th, Coach Burge's boys again covered themselves with glory in their game with the powerful St. Aloysius team in City Park stadium at New Orleans, who they kept from scoring at all, defeating them with a score of 14-0.

Doe Blanchard played a brilliant game and was assisted admirably by Hugh Kiefer whose sensational 48 yard punt gave Stanislaus the second touchdown in the game.

The Rock-A-Chaw team as a whole presented an impregnable wall which none of the brilliant plays and powerful tactics of the St. Aloysius team could break through, and the game as a whole was one of interest and thrills throughout the afternoon.

A number of football fans and relatives and friends of the members of the team journeyed to New Orleans for the game and an enthusiastic crowd of rooters for the home boys occupied a part of the stadium.

## FARM DEFENSE GOAL

For Mississippi For Oats Is 288,000 Acres Says Hancock County Agent Stowers.

According to information received last week from the office of the U. S. D. A. Defense Board, given by S. W. Stowers, county agent, the 1942 farm defense goal for Mississippi for oats as given by Secretary Warburg at Memphis is 288,000 acres. This compares with 153,000 acres planted in 1941 and 118,000 planted in 1940. If the goal for Mississippi is to be reached it means that every county must plant its share of the total state goal. It also means that Hancock farmers must take immediate action and plant their oats as soon as possible.

Mr. Stowers states that oats should be planted now and not later than November 1st, to best results. Oats should be planted at the rate of 2 to 2½ bushels per acre and should be fertilized with 200 to 300 pounds of superphosphate plus 500-1000 lbs. of lime (oyster shell dust) per acre or 500 pounds of basic slag per acre. Oats planted alone or in combination with vetch or austrain winter peas furnishes excellent winter grazing for dairy cattle and other livestock the agent stated. Because of increased feed costs Hancock farmers will profit by increasing their acreage of oats for grazing and at the same time help to meet the farm defense goal for oats.

## PRESENT SEASON IS RICH IN GIFTS OF FALL SEASON

Bay-Waveland It At Best During The Fall Season—Outing is Inviting.

This is the fall season. The beauty of the Mississippi Gulf Coast is better emphasized at this time than at any other time of the year. An outing reveals the famous golden rod in its abundant bud and soon the ways and by-ways as well as forests pathways will be covered with long sheaves of golden rod blossoms.

The Bay-Waveland district at its best, along with the balance of the coast. Fish, particularly at this season are biting. They are plentiful in fresh water and fishermen returning this week from the Jordan river waters and tributaries report abundant catches.

Then the weather is mild and balmy. Ideal for motoring and going places. All in all, the season of all seasons is here and it is well our people enjoy and get all there is to be had from outdoors.

Week-end visitors at this time of the year should be numerous. Nature is at its best. The harvest season is rich and the climate combines with making this the best place in which to live and the better time to enjoy all that the coast offers.

## Developing Timber Tracts To Be Featured By New State Foresters.

Albert A. Leggett of Mendenhall has taken over his duties as State Forester, succeeding A. K. Dexter, chief of forest fire control, who served as acting forester after the resignation of Hon. Fred Merrill. Mr. Leggett is a native of Rankin county and was educated, after leaving the public schools, at Mississippi State and Louisiana State University. He is expected to produce some fine results in developing timber tracts in the state and his selection is in line with the forest commission's policy of working for additional millions of trees for Mississippi. The commission feels that it is not only necessary to protect growing timber against fires, but that the state's great tracts must be replaced to some extent, if it is ever again to take its place as a timber producer.

## PASSING OF GEORGE R. REA

ALTHOUGH the community had known George R. Rea had been ailing for some time, occasioning concern, it was nevertheless a surprise and a shock Tuesday morning when it was announced that he had passed away after midnight that morning at home.

Seized with a sudden attack of illness, and before a physician had time to arrive, Mr. Rea had passed away. The news of his death was received with widespread sorrow. He was well and widely known and enjoyed the esteem and confidence of all who knew him.

Deeply imbued with the duties of a citizen, he was affiliated with all that contributed to the public good. He was county chairman of the American Red Cross and to this for many years he devoted major time. As chairman of the annual Bay St. Louis Carnival organization, he gave this enterprise a good deal of his time, and to a considerable measure much of the success of the affair was due to his unflagging interest.

Mr. Rea was perhaps better known as a banker. For over twenty years he was first cashier then later he rose to the high position and honor of president of the Merchants Bank & Trust Company. A few years ago he resigned the arduous and exacting duties and became president of the Peoples Federal Loan Association, and it might be said he practically died in harness for the day of his death he was at his desk that afternoon.

He was a contributing factor to the community in more ways than one in his passing Bay St. Louis has lost another of its valued citizens. A man, noted for efficiency and loyalty, he discharged the duties of every obligation, trust and honor that fell to his lot. He was diligent, industrious and no man so well fitted his time more constructively than he.

## FEAST OF ALL SAINTS APPROACHING.

THE annual feast of All Saints is rapidly approaching. In this section of Louisiana, Mississippi the day is one consecrated to the care and thought of resting places and to the memory of our departed ones.

As a result cemeteries show attention that is only contrasted by the seeming neglect of all other days of the year of our late ones.

Already, in Bay St. Louis, we see signs of approaching of All Saints. Forces are at work weeding paths and by-paths and individuals are preparing to care for the spots hallowed by the memory of those whose remains lie there.

It is an old custom. A pretty one and that attention in this direction is in evidence as so early a time, comparatively speaking, is worthy of mention.

The season has been warm. Flowers will be prolific and we may expect to see more flowers in cemeteries this All Saints than as is the case in other years.

## ENTERPRISING PROJECT.

BAY Rotary Club is vastly interested in placing a sign advertising Bay St. Louis at a prominent point on the Old Spanish Trail. That he who runs by may read. This is an outstanding enterprise and that the club is now urging the immediate building, painting and placing in position of such sign, is a matter of vital interest to all.

Thousands of tourists go through Bay St. Louis and it is safe to say the average "foreign" (out of State traveler) knows little or nothing of this place.

It is for this reason, aside from the advertising afforded, such information is necessary. And that a huge sign, properly lettered, will serve to advantageous purpose.

Rotary Club cannot have this sign in position any too early. Soon the winter tourists will be going through in large numbers. We must tell about our section. The old saying still holds good, "it pays to advertise."

## THE NAVY ASKS FOR MEN.

THE United States Navy is making an interesting experiment in an effort to secure recruits to man the two-ocean navy that is now under construction. An extensive advertising campaign is being undertaken in the hope of attracting the attention of men who wish to enlist in the Navy.

There are many advantages available to a young man who enlists in the Navy today. Not only will the sailor be paid for his time, but, very often, he will be instructed in a skill that will open new avenues of employment after the naval enlistment period has been completed. To earn and to learn at the same time is a combination not often found.

Mississippi can take little pride in the number of people killed on the highways; the conclusion is inescapable that some of these deaths can be prevented.

There are two ways to advertise in The Sea Coast Echo: the right way and the wrong way. We will be glad to advise potential advertisers about the right way.

The state's ad valorem tax levy will remain at 6 mills for 1941 tax collections. It was announced recently by Governor Johnson. It had been hoped that the levy might be reduced but the reality of the present financial conditions, used by the various institutions, has caused the levy to remain at the present rate. The levy is a tax on property and is levied on all property in the state.

## RISE OF CONGRESSMAN COLMER

REPRESENTATIVE William M. Colmer was named by Speaker Rayburn as one of the two House members on the National Forest Reservation Commission. The commission is made up of three cabinet members, two members of the Senate, and two members of the House. The cabinet members are Secretary of War Stimson, Secretary of the Interior Ickes, and Secretary of Agriculture Wickard. While the two senators are Senator George (D-Ga.) and Senator Bridges (R-N.H.), Congressman Woodruff (R-Mich.) is the other member of the House.

The duty of the commission, along with other things, is to acquire lands for reforestation purposes throughout the nation. Realizing the necessity for some action to prevent the continued depletion of the nation's forests, the Congress in 1911 set up this select commission.

Congressman Colmer is already a member of the powerful rules committee of the House, which consists of 14 members, through which must be cleared all of the important legislation.

In addition Congressman Colmer, from the Mississippi Gulf Coast, has received wide recognition at the hands of his colleagues in Congress and enjoys the high favor of the President. It is noted his rise has been constant and all honors possible have come to him through the process of recognition of merit and his activity.

It is not saying too much that some day it would not be surprising if he were mentioned and urged for high honors. As a United States senator he would, indeed, reflect glory to the honor.

Congressman Colmer is yet a young man, and the future is bright.

## NEW BUILDING FOR BAY HI BAND.

A NEWS article on the front page of last week's Echo carried more than news of ordinary significance under a head of "Band Hall For Bay Hi Completed."

The article carried an outline history of the Bay Hi Band, and a description of the band building completed and forming the third story over the south wing of the new gym building. Article carried full details and does not permit repetition, however, it must be said to the credit of the school workers and others who made this possible, with the Board of Mayor and City Commissioners, Board of School Trustees, cooperating, this is an outstanding accomplishment and is worthy of more than ordinary news mention, even though the article carried well the project and its details.

The Bay High Band and Director W.C. Morgan, have expressed their appreciation to the city council and city board of school trustees for the beautiful and spacious band department building, equipped with the latest arrangement. The band room proper is capable of accommodating a band composed of 90 members. By October 15 it is expected the number will have exceeded seventy members.

The new building is open to public inspection and the invitation is extended to all. The Echo also wishes to voice its appreciation of this accomplishment. We are proud of our town and our schools. See how they grow!

## GERMAN LOSSES IN RUSSIA

AN interesting dispatch, published in the Chicago Daily News, and other newspapers, from "Somewhere in Europe," reports that in seven days recently a Hamburg newspaper printed 82 death notices.

The population of Hamburg is more than a million, or about one-eighth of the modern Reich. If the same percentage holds true elsewhere the notices imply a death rate of about 6,500 a week, or 85,000 for the 13 weeks fighting against Russia.

This is close to the announced German losses but the correspondent points out that closer examination reveals greater losses. Death notices are usually published by families able to buy advertising space but, more significantly, 67 of the Hamburg notices related to commissioned or non-commissioned officers. Only 13 were soldiers.

Military experts guess that losses of officers aggregate around 15 per cent of the total casualties. Applying this ratio to the Hamburg notices, reveals that the Reich lost 86,000 a week for 13 weeks, or 1,100,000 during the three months of the eastern campaign.

"Bitterness was scarcely concealed in some notices," says the writer, calling attention to the phrase, in several, which told of the death of a son killed "as his father in 1916."

## WHEN WILL THE BRITISH ATTACK?

THERE is some impatience in Great Britain and in this country, over the failure of the British to take the offensive in the west while German soldiers are engaged in their stupendous struggle with the Red army.

Certain strategists declare that a golden opportunity is being lost to create the "two-front" war. They should add, however, that a "two-front" war requires two armies able to hold against an enemy offensive.

The question that confronts the British is not whether they can obtain a foothold on the continent but whether they can maintain it, after they land. To attack with insufficient forces, would be to present Germany with an opportunity to smite another British army.

Recent speculation has been increased by an article in a London newspaper by War Minister David Margesson, seemingly discounting the likelihood of any immediate attack upon Germany upon the Western front, but holding out the promise that "the quicker we get the hammer, the harder we shall hit."

The Germans, it is believed, have at least 500,000 men in the occupied areas of western Europe. To successfully attack this force would require numerical equality and heavy mechanical preponderance on land and in the air. To make a half-hearted attack would be folly.

The Chinese and the Russians may not be too well civilized but they are carrying the ball for civilization.

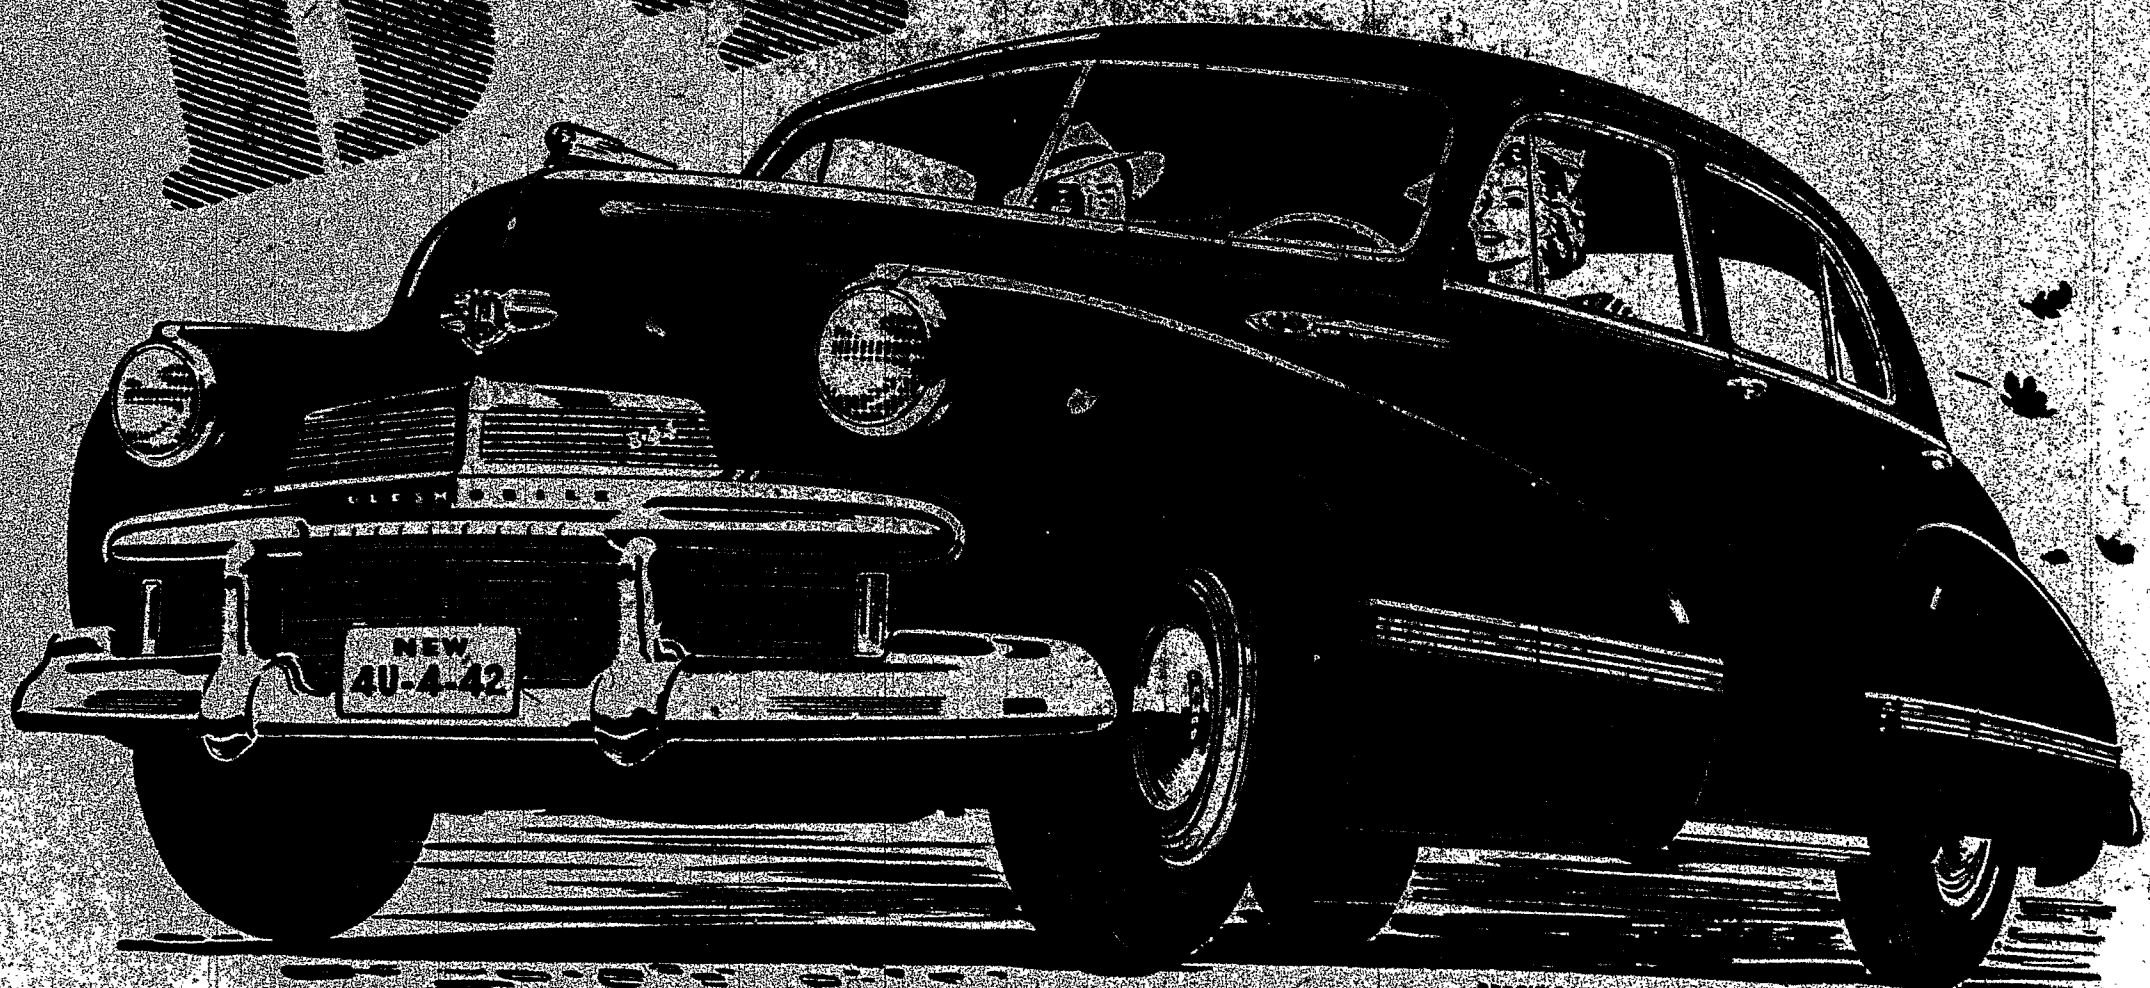

Bay St. Louis is not your neighbor's town. It is your own and you must do your part in making it a good place for human beings.

## HOME EATING

Few of us stop to realize that under Mississippi's skies we raise so many things to eat of quality that can't be beat.

Take our plump red ripe tomato, Our Irish or our sweet potato, Do they as fine, and great In any land outside the state?

Home hens lay much larger eggs, Our fryers have far fatter legs, Our cheese and butter, milk and cream Fulfill the greedy gourmet's dream.

Our corn outclasses, any day, Those bunnies raised in Iowa, And, pray, what other mortal eats Better peas or beans or beets?

Our turnip greens, you will concede, Make others taste like bitterweed, Home-killed meat has met the test And is as good as all the rest.

Bigger fish were never caught, Finer shrimp cannot be bought, Our oyster is much finer than a Bivalve raised in Louisiana.

Our peaches, pears, and other fruit The most exacting palates suit, Our syrup and honey have that tang Of which the famous poets sang.

With all this bounty, tell me why So many of our home folks buy Foreign stuff, imported brands Of eatin' raised in other lands?

This truth is plain as plain can be, Our state could have prosperity Like that once known in ancient Rome.

If home folks would just eat at home! This column doesn't advocate a boycott of out-of-state products, or anything that drastic. However, it does seem that Mississippians should use home-made stuff wherever and whenever possible. With the nation's lowest per capita income, we need to do something about it. The logical step is for us to buy, use, and boost Mississippi products as we have never done before. "Heaven helps them that help themselves."

MILITARY EXPERT UNDERSTANDS "THE SWORD"

The Funk & Wagnall's dictionary gives the following definition: "Bilbo, a finely tempered sword."

Well, how it looks like we were wrong in thinking that The Sword has become obsolete and ineffective in modern warfare, especially in these hard-to-bait encounters in Mississippi political wars!

THEY WERE NOT A CAUTION, MISSISSIPPI

Mississippi's political wars have been going on for a long time. They have been going on for a long time. They have been going on for a long time.

Mississippi's political wars have been going on for a long time. They have been going on for a long time. They have been going on for a long time.

## STANISLAUS BOYS

## MAKE GOOD AT N. D.

Two of Saint Stanislaus students who matriculated at Notre Dame University this September have already won recognition in various fields.

James Bryan, Class '42, has joined the Band and last week he marched for the first time with the musicians in their entertainment during the half of the Notre Dame-Arizona game. Jimmie was a member of the band at Saint Stanislaus, and was deemed good enough to secure a berth immediately on Notre Dame's crack aggregation. Jimmie also belongs to the Notre Dame unit of the Naval R. O. T. C. Jimmie will be rich in uniforms this year.

Peter Juden, Class '41, who last year attended Georgia Tech, transferred this Sept. to Notre Dame. Peter immediately secured a place in the Glee Club, and rumors have it that he will appear with a group of the Notre Dame singers on a program conducted by Kate Smith, famous radio entertainer.

Both boys report that Notre Dame is all that is said of it and more. Both also remarked that the routine is very similar to that at Saint Stanislaus, and consequently, "falling in" at Notre Dame was not at all difficult.

After an absence from the screen for the past two and a half years, Grace Allen is returning to play Mrs. North in Metro's "Mr. and Mrs. North," purchased in July for \$30,000.

## Officers For Senior Class Elected At Saint Stanislaus

On Friday morning Sept. 5, a meeting of the senior class was called. The purpose of this meeting was to elect officers for the coming year. This year the election was delayed considerably in order to allow the boys enough time to decide whom they wanted to lead their class through the year.

The officers were elected in the respective order of their importance.

Brother Alexis presided over the meeting until the president was elected. The candidates for presidency of the class were Elmer Breerwood, Ed Murtagh and J. T. Prosser. J. T. Prosser won the election by an overwhelming majority. Prosser held the same position in his class in the Freshman year and Junior year.

J. T. then took over the chair and

Seventy-six sets will be used during the shooting of "King's Row," which will require at least twelve weeks for filming, making it one of the most expensive films on the Warners' schedule for this season. headed the remainder of the meeting.

For vice-president, nominees were Elmer Breerwood, Harold Zimmerman and Doc Blanchard. Elmer, also won by an overwhelming majority. Elmer is prefect of the Coast Union Sodality and of the Stanislaus Sodality. Last year he held the same office in his class and in his Sophomore year, he was president.

Zimmerman, Schmidt, Blanchard and Kiefer were nominated for secretary. Schmidt refused nomination due to the fact that his other duties would interfere with holding this position worthily. Zimmerman received the majority of votes.

Those nominated for the office of secretary were Kiefer, Pacheco, Doc Blanchard and Roemer. In the first primary Kiefer and Roemer were eliminated but due to the fact that neither Pacheco or Blanchard had a majority another primary was held in this "Doc" won by an overwhelming majority.

The officers made short speeches of thanks and the meeting was adjourned.

## Hollywood Echoes.

MOST movie fans will be delighted to hear that MGM plans to co-star Jeannette MacDonald and Nelson Eddy in "I Married an Angel," an adaptation of the Broadway musical comedy.

William L. Shirer, NBC news commentator who recently returned to this country after a sojourn in Germany, will assist in the filming of "Passage from Bordeaux," which deals with the French debacle of 1940.

Ever mindful of the days when he wasn't on top, as he is today, Bob Hope gives of himself generously, having appeared at as many as five benefits in one day. When he gives a benefit performance, the organization holding the affair benefits, not Bob. Another thing we might say to his credit is that he never tries to steal the show from his fellow performers, although he usually does.

Because scenes in "A Yank in the R. A. F." in which Betty Grable appeared as an ambulance corps member, showed too much of her simplest knees, censors made the studio re-take several sequences and several inches were added to Miss Grable's uniform skirt. Too bad, eh?

For vice-president, nominees were Elmer Breerwood, Harold Zimmerman and Doc Blanchard. Elmer, also won by an overwhelming majority. Elmer is prefect of the Coast Union Sodality and of the Stanislaus Sodality. Last year he held the same office in his class and in his Sophomore year, he was president.

Zimmerman, Schmidt, Blanchard and Kiefer were nominated for secretary. Schmidt refused nomination due to the fact that his other duties would interfere with holding this position worthily. Zimmerman received the majority of votes.

Those nominated for the office of secretary were Kiefer, Pacheco, Doc Blanchard and Roemer. In the first primary Kiefer and Roemer were eliminated but due to the fact that neither Pacheco or Blanchard had a majority another primary was held in this "Doc" won by an overwhelming majority.

The officers made short speeches of thanks and the meeting was adjourned.

## Altar Boys Society Elect Officers For The New Year

The Saint John Berchman's Altar Boys' Society of the Our Lady of the Gulf Parish elected their annual officers last week at Saint Stanislaus College.

A. J. Scatfield, was elected president by a small majority. Cyril Piazza was elected to perform the obligations of Master of Ceremonies. The other officers elected were: Bobbie Murtagh as treasurer and Peter Benvenuti as secretary. Philip Scatfield who was the present president but due to unseem obligations had to resign was appointed honorary president, unanimously.

This year the society is under the able direction of Father Neimeyer who succeeds Father Fahey as assistant pastor of Our Lady of the Gulf Parish.

When it was revealed, during the shooting of "H. M. Pulham, Esq." that Hedy Lamarr had never witnessed a football game, a gallant extra immediately volunteered to "fix that up." It didn't result in a date, however, but our guess is that Miss Lamarr will see at least one football game this season.

Cast as a pearl diver in "Son of Fury," John Carradine, 130-pound six footer, just up and balked, good and hard, when his role required him to appear draped in a sarong. John thundered, "I've got more angles than a Hollywood agent and the only place I exhibit them is in a curtained shower."

Jane Russell, Howard Hughes' "find," who made her screen debut in his as yet unreleased, "The Outlaw," is described by James Montgomery Flagg, who sketched her, as

"beautiful, voluptuous and swarthy as a pirate's daughter. Jane said she doesn't smoke or drink and I liked her better for that."

When George and Gracie Allen took their two children, Sandra and Ronnie, to a baseball game recently, their explanations of the game to the children just about stole show from the players, to the delight of the fans around them.

For her role in "H. M. Pulham, Esq." Hedy Lamarr has a new coiffure. She will wear the new coiffure and will be wearing it in a cello at the cape of her neck. This leaves the ears exposed and to cover them up, Hedy will wear earrings. Current New York visitor is Joan Crawford, who came from her recently completed "When Ladies Meet." . . . CHILL WILLS, last seen with Wally Beery in "Barnacle Bill," will rejoin that star in "Steel Cavalry." Henry O'Neill, the editor in "Billy the Kid," is another to join the Beery cast. . . . When you see VAN HEFLIN in "The Feminine Touch," you'll appreciate M-G-M's plans for this recruit from the New York stage. Heflin, you'll recall, played opposite Katharine Hepburn in the stage version of "The Philadelphia Story."

# "Imagine me, steering a Destroyer!"

"And I've had two pay raises in only eight months! I'll say you can't beat Uncle Sam's Navy!"

YOU couldn't ask for a greater thrill than that which a fellow gets when he comes back home wearing a trim Navy uniform. The folks crowd around. They all want to know where you've been, what you've done. And man, do you have stories to tell!

### GREATEST LIFE IN THE WORLD

You're proud. And you should be. For you've been leading the greatest life in the world. And it's a thrill to tell about it, too. A thrill to see the admiration in the eyes of the One and Only Girl as you tell about the first time you steered a Destroyer. Or handled a P.T. Boat at more than 45 miles per hour. Or stepped out in front of your shipmates to receive your first promotion.

And with that promotion came an increase in pay. And there were more to come. Second Class. First Class. And then Chief Petty Officer. Many might even go to Annapolis. Or to Pensacola with the flying cadets!

Exciting? You bet, and fun too. Something doing all the time. Real he-man's stuff. Boxing. Baseball. Football. Swimming. AND MOVIES... previews, too!

### LOOK WHAT THE U. S. NAVY AND NAVAL RESERVE OFFER YOU

### FREE TRAINING WORTH \$1500

And all this time you're taking care of your future! The Navy said, "Pick a trade—we can make you an expert." And they gave you nearly 50 skilled trades and vocations to choose from: Radio expert, machinist, welder, aviation mechanic, dental technician, electrician—to mention a few.

Yes, training that would be worth \$1500 to you in one year's time. Training that will assure you of a well-paid job in civil life. Yet you get paid while learning—get your keep and a complete outfit of clothing free.

### ENROLL IN THE NAVAL RESERVE ... BE RELEASED AFTER THE EMERGENCY

The Secretary of the Navy has announced: "All men now enlisting in the Naval Reserve will be retained on active Navy duty throughout the period of the national emergency, but they will be released to inactive duty as soon after the emergency as their services can be spared, regardless of the length of time remaining in their enlistment."

Remember—the regular Navy and Naval Reserve offer you the same travel, training, promotions, pay increases. Physical requirements in the Naval Reserve are more liberal.

SERVE YOUR COUNTRY ★ BUILD YOUR FUTURE

of course, is a very notable and prize-worthy cause. In the past few years the club has been very active in this respect. However, this year it is the desire of the members to once more attain an enrollment of over one hundred men and to surpass the activities of previous years.

On Friday, September 26, another meeting was held. However, the purpose was not in line with that of regular meetings, it was merely to be a smoker to compliment coaches of Boston College and the newspapermen who came down with them. Thirty-six members of the club were present. However, due to circumstances, few of those who were expected, attended the gathering. The next meeting was set for Friday, October 9.

### COLUMBUS' LIFE SHOULD INSPIRE YOUNG PEOPLE.

The story of Columbus is well known. But, often forgotten is the fact that he wasn't searching for a new continent, but merely for a shorter route to the East Indies. In attempting to reach a relatively simple goal, he found a far greater objective, though he never realized it. That's often the way it is with others. They try to better themselves in a small way, and open up new regions of opportunity they never dreamed existed. Often a hobby is developed into a far better job or an entirely new field of endeavor. Often reading a book on an unusual subject opens a whole new field of study and pleasure. Often a simple

act results in a new and better attitude toward other people. Columbus wasn't looking for a new world. But he found one, and his place in history is secure. You may not be looking for one either. But you're apt to find it, if you try to better your position in the present one.

### "NAVY INTELLIGENCE"

Is it necessary to be a high school graduate in order to enlist in the Navy?  
No, Navy enlistees need not be high school graduates. All applicants will be given an examination containing approximately 100 questions. A grade of 50 per cent or better on this examination is sufficient to pass the Navy educational standards. However, a high school education will be valuable to the seaman during his Navy enlistment.

After I have served my term of enlistment, what benefits do I get for re-enlistment?  
Depending on your rate and length of service, you can get a cash bonus up to \$800 plus 30 days leave with pay.

What does the term "ash can" mean in the Navy?  
An "ash can" is a slang term applied to the depth charge used to combat submarines. The average "ash can" is a container filled with approximately 200 pounds of T.N.T. and can be dropped overboard from a ship and so controlled as to explode at depths ranging from 30 to 300 feet. These are generally carried by the fast ships in the fleet, as a boat dropping a charge regulated to explode at 70 feet depth must move away from the explosion area at a speed of 25 knots or more. These "ash cans" are either rolled off the stern of a ship or "gunned" which hurt one right and one left simultaneously.

What is the greatest possible pay I can expect to earn during my first term of enlistment?  
It is possible to earn as much as \$1500.
